Re: Your Requests for Advice
Our File Nos. I-88-034 and I-88-038

Dear Ms. Mayfield:

We have received your letter regarding the Maywood City Council's adoption of an item which was not on the posted agenda and your subsequent letter concerning the council's consideration of a negative declaration on a redevelopment project in your city.

The Fair Political Practices Commission has authority to interpret and enforce the Political Reform Act.^{1/} The Political Reform Act was established for several purposes, some of which are disclosure of sources of campaign contributions, disclosure of assets and income of public officials, disqualification of public officials from decisions which could affect their private financial interests, and regulation of the activities of lobbyists to prevent improper influences on public officials.

The questions you pose in your letters are not covered by the Political Reform Act; therefore, we cannot advise you on these matters. It would be more appropriate for you to direct your questions regarding the adoption of an item by the city council to your county district attorney and the consideration of the negative declaration to your city attorney.

Sincerely,

Diane M. Griffiths
General Counsel

January 11, 1988

Leonard Locher
Chief Administrative Officer
City Clerk
4319 E. Slauson Ave.
Maywood, California 90270

Dear Mr. Locher:

The Maywood City Council will hold a public hearing on January 12, 1988 at which time the council will consider the adoption of a negative declaration (Exhibit "A") and the vacation of Heliotrope Circle between Slauson and Mayflower. We, as voters and concerned members of the community, hereby request that the council not adopt this negative declaration and also to abandon their efforts to vacate this very important street. The negative declaration is flawed and should not be substituted for an environmental impact report.

This negative declaration is flawed because of the following reasons:

- (1) It is based on an environmental checklist (Exhibit "B") which is defective because it is not supported by substantial evidence or facts.
- (2) It is based on an environmental checklist which is not completely truthful, the vast majority of the traffic using Heliotrope Circle does so in order to continue south on the Circle and not because of the businesses on the Circle, as this checklist implies.
- (3) It is based on an environmental checklist which at times contradicts itself as well as statements on this negative declaration.
- (4) It is based on an environmental checklist which does not address any of the potentially adverse effects this project may have in the environment.
- (5) It is based on an EIR, prepared in June of 1986, which does not mention or address the vacation of Heliotrope Circle.
- (6) It is based on an EIR which does not include a study of the intersection of Slauson and Mayflower.
- (7) It is based on an EIR which itself is defective because according to our survey the number of vehicles turning right (south) onto King and Heliotrope Avenues, of eastbound Slauson traffic, is incorrect. (Exhibit "D")
- (8) It is based on a Traffic Committee recommendation of a meeting held on Nov. 24, 1987. At this committee meeting none of the members were given any evidence or facts on which to base their decision. (Exhibit "C"-minutes of that meeting)

We ask that the council not adopt this flawed negative declaration and also that they follow any and all applicable Government Codes and regulations before proceeding any further on this project. Public Resources Code 21168 requires that a local agency prepare an environmental impact report if there is substantial evidence that a project will have a significant environmental impact whether or not there is evidence to the contrary. According to our survey (Exhibit "D"), between 150 and 175 vehicles will need to be rerouted during peak hours because of this project, this fact alone is sufficient to require an environmental impact report.

Locher
January 11, 1988
Page 2

Heliotrope Circle serves as a safe and quick exit from Slauson Avenue and thus helps to relieve the congestion on this very heavily traveled street, Slauson, especially during peak hours. This Circle also helps keep traffic off of our residential streets, streets which are already crowded and are very narrow.

We ask that the council not make another arbitrary decision on this very important ~~issue and also that it not abuse it's discretion by adopting this negative declaration~~ and deciding to vacate Heliotrope Circle without the preparation of an environmental impact report. If the council decides to violate Government Codes by deciding against the best interest of the community, we, the members of the community, will have no other choice but to seek redress in the courts.

Very truly yours,

Ronald E. Fick

Mr. Kevin Braaten-Moen
Technical Assistance
Fair Political Practices Commission
Post Office Box 807
Sacramento, CA 95804

Dear Kevin:

This letter is to confirm telephone advice by you on this date with reference to Government Code section 84305 and the disclaimers required for mass-mailings.

In distinguishing between subparagraphs (a) and (b) of Government Code section 84305, you stated that subsection (b) applies to a general purpose recipient committee, a sponsored committee, or a controlled committee that is controlled by only one candidate. Subsection (a) applies to a controlled committee that is controlled by more than one candidate.

In applying the above statute, I described the "ABC Committee, sponsored by XYZ," whose purpose is to oppose a ballot measure. I further described the contents of a mailing by that committee that consists of a fundraising letter by President Gerald Ford on his personal stationery. You advised that so long as the full name of the sponsored committee is shown on the outside of the envelope, it is not necessary that the name of the sponsored committee be printed on President Gerald Ford's letterhead (or any other insert that might be enclosed in the envelope).

While I did not request advice on this additional subject on the telephone, we now ask you to confirm that an envelope imprinted with "President Gerald Ford (and his address and city)" in the upper-left hand corner of the front of the envelope and "ABC Committee, sponsored by XYZ (and its address and city)" on the reverse flap of the envelope, constitutes compliance with subsection (b) of Government Code section 84305.

Mr. Kevin Braaten-Moen
January 13, 1988

Title: _____

Vacation of Heliotrope Circle is a separate project from the proposed Senior Housing project.

Exhibit "A"

#8

CITY OF MAYWOOD
4319 E. Slauson Avenue
Maywood, California, 90270

NEGATIVE DECLARATION

Disposition and Development Agreement

Description of Project:

Street Vacation - Heliotrope Circle from Slauson to Mayflower Avenue. Vacation of street to facilitate the development of a 55 unit Senior Citizen Housing Complex.

Location of Project:

Located at and near Southwest corner of Slauson Avenue and Mayflower Avenue

Project Proponent:

Maywood Building and Planning Department

for a private developer

Findings of Environmental Effect:

Based on the findings in the Environmental Checklist, it would appear there would be no significant effect on the environment, and would appear logical to claim a Negative Declaration for this project.

Which checklist? - If the one dated Dec 11, 1976, it did not address the vacation of Heliotrope circle

Further Findings:

Additional mitigation measures are not necessary to avoid potentially significant effects. *→ what potentially significant effects?*

This Negative Declaration was prepared pursuant to the California Environment Quality Act of 1970 (CEQA), Public Resources Code No. 21100 et, seq., and follows the EIR Guidelines of Resources on February 3, 1973 as amended.

Linda L. Dovalis
Linda L. Dovalis

Post on or before December 10, 1987

→ if that is the case, then what is going to happen to the traffic which presently uses Heliotrope Circle?

December 17, 1987

MEMORANDUM

TO: Honorable Mayor and Members of Maywood City Council
Leonard R. Locher, Chief Administrative Officer/
City Clerk

FROM: Ronald L. Lindsey, Director of Building & Planning
Linda L. Dovalis, Building & Planning Assistant

SUBJECT: Street Vacation
Heliotrope Circle from Slauson Avenue to Mayflower Ave.

PROPOSER: Maywood City Staff - for a private developer

PROPOSAL: The Maywood Redevelopment Agency has acquired or has in escrow all of Lot 1824 and the east half of Lot 1825 of Tract No. 4185 as per map recorded in Book 44, Page 84. The Agency is obligated by a Disposition By Choice and Development Agreement to vacate such street and convey the property to a developer.

The City wishes to cooperate with the Agency in the completion of its obligations under the DDA by vacating Heliotrope Circle pursuant to the Street Vacation Act of 1941.

FINDINGS:

1. Approval of the street vacation will not be detrimental to the public interest, safety, health or welfare and will not be detrimental or injurious to the property or improvements in the vicinity and zone in which the property is located.

An Environmental Impact Report prepared in June 1986 states even with full build-out of Redevelopment Area No. 2, the projected future operating conditions at the intersections of Slauson/King and Slauson/Heliotrope would operate at "accepted levels of service" during late afternoon peak hours. ?

2. Approval of the vacation will not be contrary to, or in conflict with, the goals and objectives of the General Plan.

One of the objectives of the Land Use Element of the

How much time did the T.C. have to arrive at this conclusion - are they qualified?

only if person does not live in the vicinity, did not affect the location of Heliotrope Circle.

Did not include the location of Heliotrope Circle

The fact is that King Ave. will not be affected significantly.

Slauson & Heliotrope was project to have 35 vehicles per development.

MEMORANDUM

December 17, 1987

Vacation of Heliotrope Circle

Page 2

*only because it was
recommended by the present
Council to accommodate this
project.*

General Plan for Commercial Land Use is to provide multi-unit housing opportunities for Senior Citizens and low income families.

*When were the sewer
systems installed*

3.

Existing public utility facilities will be adequate to serve the area. Emergency access will not be hindered.

*Not
true*

The right-of-way of Slauson Avenue is 110 feet wide, and the right-of-way for Mayflower Avenue is 50 feet, which is equal to the right-of-way of King Avenue and of Heliotrope Avenue.

CALIFORNIA ENVIRONMENTAL AIR QUALITY ACT:

Based on the information in the environmental check list, a Negative Declaration was prepared and posted, and a Notice of Determination will be filed with the County Clerk.

POSSIBLE COUNCIL ACTION:

1. Approve as proposed and adopt the findings; or
2. Approve subject to other than proposed; or
3. Deny

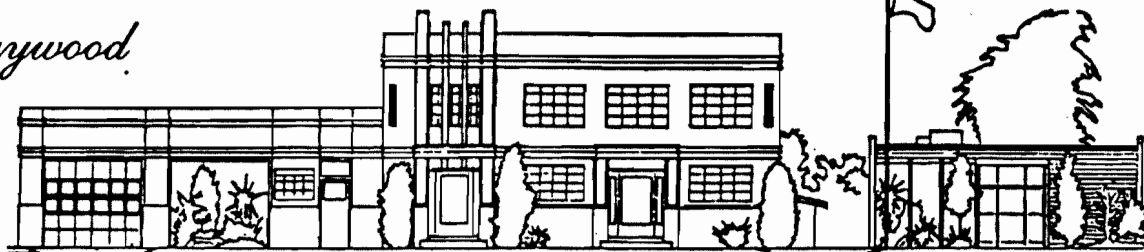

RECOMMENDATION:

The Maywood Traffic Committee and Staff recommend approval of the vacation of Heliotrope Circle from Slauson Avenue to Mayflower Avenue including the traffic island.

*The staff does not live in Maywood
and the majority of the traffic committee
are not very familiar with conditions at this
location.*

YES MAYBE NO

21. Mandatory Findings of Significance.

a. Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?

— — X

b. Does the project have the potential to achieve short-term, to the disadvantage of long-term, environmental goals? (A short-term impact on the environment is one which occurs in a relatively brief, definitive period of time while long-term impacts will endure well into the future.)

— — X

c. Does the project have impacts which are individually limited, but cumulatively considerable? (A project may impact on two or more separate resources where the impact on each resource is relatively small, but where the effect of the total of those impacts on the environment is significant.)

— — X

d. Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?

— — X

should have been answered YES →

should have been answered YES →

III. DISCUSSION OF ENVIRONMENTAL EVALUATION

Soils will be subjected to displacement and compaction as well as uncovering as a result of new construction and relocation of certain utilities lines.

The land use will be changed from a street to residential living use. The circle will be closed and traffic will be rerouted to make a right turn at Mayflower, off Slauson.

Presently traffic flows directly off Slauson through Heliotrope Circle. By closing this portion of Heliotrope Circle, traffic will make a right turn at Mayflower, off Slauson.

This will ~~be a change~~ create a dangerous intersection
no mention is made as to the number of vehicles using this circle

- c. Concerns have been raised about water pressure for the site after relocation of the water lines. These problems can be worked out through engineering.

General Discussion

The street currently serves three (3) businesses, one of which is and has been closed for years due to fire. The other two businesses have been acquired by the Maywood Redevelopment Agency and will be closed within four (4) months. Much of the traffic using the Circle has been for these businesses and also for the ARCO service station on the east side of Mayflower Ave. Under the former operation of the ARCO station there were pumps on the Heliotrope Circle side as well as Slauson Avenue side. Due to limited access from Slauson, customers would enter off Heliotrope Circle. When ARCO was remodeled, this problem was corrected and now a majority of the traffic enters off Slauson.

IV. DETERMINATION

(To be completed by Lead Agency)

On the basis of this initial evaluation:

☒

It is the determination of the Environmental Impact Review Committee that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

☐

It is the determination of the Environmental Impact Review Committee that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described on an attached sheet have been added to the project. A NEGATIVE DECLARATION will be prepared.

☐

It is the determination of the Environmental Impact Review Committee that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

☐

Other.

Date December 1, 1977

Ronald Z. Ziliny
(Signature)

For Maywood Redevelopment Agency

— an — General discussion —

* The majority of the traffic using Heliotrope Circle does so to continue south on Heliotrope Ave.

Maywood, California 90270

Dear Mr. Locher:

Government Code Section 54954.2 prohibits a local agency from taking action "on any item not appearing on the posted agenda". At the regular meeting of the Maywood City Council on December 22, 1987, the council adopted resolution # 3838, an item which was not on the posted agenda. (Enclosed is a copy of the posted agenda and a copy of the minutes of the meeting.) The approval of this resolution was a blatant violation of the Gov. Code Section known as the Brown Act. We do not understand why the council was allowed to violate this Gov. Code, especially with the presence of both the City Attorney and the Redevelopment Attorney. We demand that the Maywood City Council and the Maywood Redevelopment Agency refrain from any further violations of any applicable Gov. Codes or regulations when making public policy decisions.

Very Truly Yours,

Ronald E. Hick *Louis M. ...*

Leonard Locher
Chief Administrative Officer
City Clerk
4319 E. Slauson Ave.
Maywood, California 90270

Dear Mr. Locher:

Government Code Section 54954.2 prohibits a local agency from taking action "on any item not appearing on the posted agenda". At the regular meeting of the Maywood City Council on December 22, 1987, the council adopted resolution # 3838, an item which was not on the posted agenda. (Enclosed is a copy of the posted agenda and a copy of the minutes of the meeting.) The approval of this resolution was a blatant violation of the Gov. Code Section known as the Brown Act. We do not understand why the council was allowed to violate this Gov. Code, especially with the presence of both the City Attorney and the Redevelopment Attorney. We demand that the Maywood City Council and the Maywood Redevelopment Agency refrain from any further violations of any applicable Gov. Codes or regulations when making public policy decisions.

Very Truly Yours,

Ronald E. Hick Louis M. ...

Maywood, CA 90270

Re: 88-034

Dear Mr. Martinez:

Your letter requesting advice under the Political Reform Act was received on January 14, 1988 by the Fair Political Practices Commission. If you have any questions about your advice request, you may contact Jeanette Turvill, in the Legal Division, directly at (916) 322-5901.

We try to answer all advice requests promptly. Therefore, unless your request poses particularly complex legal questions, or more information is needed, you should expect a response within 21 working days if your request seeks formal written advice. If more information is needed, we will contact you shortly to advise you as to the information needed. If your request is for informal assistance, we will answer it as quickly as we can. (See Commission Regulation 18329 (2 Cal. Adm. Code Sec. 18329).)

You also should be aware that your letter and our response are public records which may be disclosed to the public upon receipt of a proper request for disclosure.

Very truly yours,

Diane M. Griffiths
General Counsel

January 11, 1988

Leonard Locher
Chief Administrative Officer
City Clerk
4319 E. Slauson Ave.
Maywood, California 90270

Dear Mr. Locher:

The Maywood City Council will hold a public hearing on January 12, 1988 at which time the council will consider the adoption of a negative declaration (Exhibit"A") and the vacation of Heliotrope Circle between Slauson and Mayflower. We, as voters and concerned members of the community, hereby request that the council not adopt this negative declaration and also to abandon their efforts to vacate this very important street. The negative declaration is flawed and should not be substituted for an environmental impact report.

This negative declaration is flawed because of the following reasons:

- (1) It is based on an environmental checklist (Exhibit"B") which is defective because it is not supported by substantial evidence or facts.
- (2) It is based on an environmental checklist which is not completely truthful, the vast majority of the traffic using Heliotrope Circle does so in order to continue south on the Circle and not because of the businesses on the Circle, as this checklist implies.
- (3) It is based on an environmental checklist which at times contradicts itself as well as statements on this negative declaration.
- (4) It is based on an environmental checklist which does not address any of the potentially adverse effects this project may have in the environment.
- (5) It is based on an EIR, prepared in June of 1986, which does not mention or address the vacation of Heliotrope Circle.
- (6) It is based on an EIR which does not include a study of the intersection of Slauson and Mayflower.
- (7) It is based on an EIR which itself is defective because according to our survey the number of vehicles turning right (south) onto King and Heliotrope Avenues, of eastbound Slauson traffic, is incorrect. (Exhibit"D")
- (8) It is based on a Traffic Committee recommendation of a meeting held on Nov.24, 1987. At this committee meeting none of the members were given any evidence or facts on which to base their decision. (Exhibit"C"-minutes of that meeting)

We ask that the council not adopt this flawed negative declaration and also that they follow any and all applicable Government Codes and regulations before proceeding any further on this project. Public Resources Code 21168 requires that a local agency prepare an environmental impact report if there is substantial evidence that a project will have a significant environmental impact whether or not there is evidence to the contrary. According to our survey (Exhibit"D"), between 150 and 175 vehicles will need to be rerouted during peak hours because of this project, this fact alone is sufficient to require an environmental impact report.

Locher
January 11, 1988
Page 2

Heliotrope Circle serves as a safe and quick exit from Slauson Avenue and thus helps to relieve the congestion on this very heavily traveled street, Slauson, especially during peak hours. This Circle also helps keep traffic off of our residential streets, streets which are already crowded and are very narrow.

We ask that the council not make another arbitrary decision on this very important issue and also that it not abuse its discretion by adopting this negative declaration and deciding to vacate Heliotrope Circle without the preparation of an environmental impact report. If the council decides to violate Government Codes by deciding against the best interest of the community, we, the members of the community, will have no other choice but to seek redress in the courts.

CITY OF MAYWOOD REGULAR MEETING OF THE MAYWOOD TRAFFIC COMMITTEE

Tuesday, November 24, 1987

6:30 p.m.

CALL TO ORDER

ROLL CALL: Members Isabel Dedmore, Ray Smith, Randall Lee, Jennie Tocker and Chairman Quiles. Also present City Engineer Matt Binder.

CONSENT ITEMS:

1. To consider closure of Heliotrope Circle from Slauson to Mayflower Avenue.

ADJOURNMENT

I, Elizabeth Fasthorse, hereby certify that this agenda was duly posted at the following locations on November 20, 1987, at the times indicated.

4319 E. Slauson Avenue at 2:45 p.m.

4323 E. Slauson Avenue at 3:00 p.m.

4747 E. 56th Street at 3:15 p.m.

check # 31494 11/24/87 \$5000.00
31567 11/24 5504.00 Bus Passes

The traffic committee did not have any information or evidence on which to base their decision.

Exhibit "C"

November 24, 1987

MEETING OF THE MAYWOOD TRAFFIC COMMITTEE HELD IN THE
MAYWOOD CITY HALL, CONFERENCE ROOM, 4319 E. SLAUSON ON THE
ABOVE DATE

CALL TO ORDER

Meeting was called to order at 6:30 p.m. by the Secretary, Matt Binder.

PRESENT: Isabel Dedmore, Ray Smith, Jennie Tocker, Pat Quiles and Randall Lee. Also present Ron Lindsey, Director of Building & Planing.

Mr. Binder explained that the purpose of the meeting is to consider vacation of a portion of Heliotrope Circle to add the area to the Senior Housing Site at Mayflower.

Mr. Lindsey also explained that at present there is an island at the intersection not serving any real purpose and matters of safety involved when approaching this intersection.

Mr. Binder explained to the committee that the duty of the Traffic Committee is to determine whether the closure of Heliotrope Circle is safe, unsafe and/or appropriate for the Seniors and community at large.

Mrs. Tocker requested that the committee visit the site for those who are not familiar with that area.

Committee adjourned at 6:47 p.m. and reconvened at 7:05 p.m.

Moved by Member Dedmore, seconded by Member Lee

TO RECOMMEND TO THE CITY COUNCIL TO HOLD A
PUBLIC HEARING ON DECEMBER 8, 1987 AT 7:30 P.M.
AND APPROVE FOR THE VACATION OF HELIOTROPE CIRCLE
FROM SLAUSON AVENUE TO MAYFLOWER

All members voted unanimously.

Hearing no further business, meeting was adjourned at 7:07 p.m.

SECRETARY
